

## **BESPOKE SERVICE ADDS VALUE**

12<sup>th</sup> January 2009...Cannock Gates, the UK's largest manufacturer of gates, is enjoying great success since the recent launch of its bespoke service.

Capitalising on the growing trend to improve rather than move, the new offering from the company is allowing homeowners to choose a style and size of gate to perfectly suit their home.

Most pairs of gates are suitable for automation, with a choice of above and below ground hydraulic systems and electromechanical systems, some designed for easy DIY installation.

Colin Stead, Managing Director for Cannock Gates, says: "We've received lots of enquiries and orders as a result of launching our bespoke service. In current times, more homeowners are choosing to stay in their existing property rather than move – and are looking at ways to improve their homes. Adding a gate to their property is a great way of doing this and, for the trade, our new bespoke service can really help add value to their service offering."

Cannock Gates is the UK's largest manufacturer of gates offering the UK's largest range of wooden gates and wrought iron style gates and railings. The extensive range includes garden gates, side gates, drive gates, estate gates and field gates in over 750 standard size/style combinations.

Where extra security is required, Cannock Gates also supply wrought iron style window grilles, security gates for doorways and security locks. A range of traditional

garden products including arches, arbours, picnic tables, planters and tool sheds is also available.

Operating for over 25 years, the Cannock Gates ethos is based upon traditional manufacturing methods and skilled craftsmen.

All Cannock Gates timber products are PEFC certified and are produced in ways which do not damage ancient forests, harm wildlife or jeopardise the future of the people whose lives depend on the forest.
