

Get Your Garden Ready For Summer With Cannock Gates!

3rd February 2009...As every keen gardener knows, spring should be the busiest time of the year in your garden as it begins to wake up after winter.

An extension of your home, it's essential that you give your garden a spring clean so you can make the most of it during the summer months. Making a few simple changes will ensure your garden is the perfect setting for barbeques and summer entertaining, once the sun begins to shine.

Clearing out your garden shed, tidying up your decking, putting up new trellis and repainting your garden furniture are all great ways to improve your garden in an instant! And, to create that 'secret garden' look, invest in a new garden gate from Cannock Gates.

Cannock Gates offers the UK's largest range of wooden gates and wrought iron style gates and railings. The extensive range includes garden gates, side gates, drive gates, estate gates and field gates in over 750 standard size/style combinations. A bespoke service is also offered, meaning you can choose a style and size of gate or railing to perfectly suit your home.

Most pairs of gates are suitable for automation, with a choice of above and below ground hydraulic systems and electromechanical systems, some designed for easy DIY installation.

An installation service is available for gates, railings and automation.

Operating for over 25 years, the Cannock Gates ethos is based upon traditional manufacturing methods and skilled craftsmen.

All Cannock Gates products are PEFC certified and are produced in ways which do not damage ancient forests, harm wildlife or jeopardise the future of the people whose lives depend on the forest.

For further information please call 01543 462500 or visit the Cannock Gates web site – www.cannockgates.co.uk
