

## THE PERFECT GATE FOR YOUR PROPERTY

20<sup>th</sup> October 2008...Local business, Cannock Gates is enjoying great success since the recent launch of its bespoke service.

Capitalising on the growing trend to improve rather than move, the new offering from the company allows customers to choose a style and size of gate to perfectly suit their home, whatever the setting and shape!

Cannock Gates also offers a full installation service so all customers have to do is worry about who they're going to invite round first to show off their new entrance!

Most pairs of gates are suitable for automation, with a choice of above and below ground hydraulic systems and electromechanical systems, some designed for easy DIY installation.

Colin Stead, Managing Director for Cannock Gates, says: "We've received lots of enquiries and orders as a result of launching our bespoke service. In current times, more of us are choosing to stay in our existing property rather than move – and are looking at ways to improve our homes. Adding a gate to your property is a great way of doing this and our new bespoke service allows customers to create the perfect gate for their home."

Cannock Gates is the UK's largest manufacturer of gates offering the UK's largest range of wooden gates and wrought iron style gates and railings. The extensive range includes garden gates, side gates, drive gates, estate gates and field gates in over 750 standard size/style combinations.

Where extra security is required, Cannock Gates also supply wrought iron style window grilles, security gates for doorways and security locks. A range of traditional garden products including arches, arbours, picnic tables, planters and tool sheds is also available.

Operating for over 25 years, the Cannock Gates ethos is based upon traditional manufacturing methods and skilled craftsmen.

All Cannock Gates timber products are PEFC certified and are produced in ways which do not damage ancient forests, harm wildlife or jeopardise the future of the people whose lives depend on the forest.
