

Makeover your home with Cannock Gates

23rd September 2008...With living costs rising, more and more of us are turning to DIY projects to improve our homes rather than burdening ourselves with the expense of moving. Give the outside of your home an instant facelift with a drive gate from Cannock Gates.

By adding a gate to your driveway, you will not only immediately smarten up the exterior of your property but you will also add an additional security benefit to your home. So whether you prefer the clean modern lines of the 21st Century or the ornate detail of the Victorian era, Cannock Gates offers a range of gates to suit all tastes and property styles.

Cannock Gates offers the UK's largest range of wooden gates and wrought iron style gates and railings. The extensive range includes garden gates, side gates, drive gates, estate gates and field gates in over 750 standard size/style combinations. A bespoke service is also offered, meaning you can choose a style and size of gate or railing to perfectly suit your home.

Most pairs of gates are suitable for automation, with a choice of above and below ground hydraulic systems and electromechanical systems, some designed for easy DIY installation.

An installation service is available for gates, railings and automation.

Operating for over 25 years, the Cannock Gates ethos is based upon traditional manufacturing methods and skilled craftsmen.

All Cannock Gates products are PEFC certified and are produced in ways which do not damage ancient forests, harm wildlife or jeopardise the future of the people whose lives depend on the forest.

For further information please call 01543 462500 or visit the Cannock Gates web site – www.cannockgates.co.uk
